ABSTRACT

The abstract must contain between 100 and 300 words. The abstract must be written in English and Spanish. In the case of doctoral theses, the layout of the abstract page is different, so please check the template provided by the OGRS.

Keywords: thesis template, document writing, (Write here the keywords relevant and strictly related to the topic of the thesis).

RESUMEN

El resumen debe contener entre 100 y 300 palabras. El resumen debe ser escrito en inglés y español. En el caso de tesis de doctorado, el formato de la página del resumen es distinta, por favor verifique la plantilla entregada por la Dirección de Postgrado.

Palabras Claves: plantilla de tesis, escritura de documentos, **(Colocar aquí las palabras claves relevantes y estrictamente relacionadas al tema de la tesis).**

1. INTRODUCTION

1.1. Thesis outline.

This work consists of seven chapters, first is this introduction, which shows the importance of both the automatic calculation of urban perception, and explainability in artificial intelligence, and ends with the hypothesis of this research. Chapter 2 is a detailed description of the research objectives. Chapter 3 consists of a summary of the relevant previous research. In chapter 4 the problem is formally defined and the proposed model is described. Chapter 5 gives details on model implementation and training. Finally, in chapter 6 and 7 consist of the results and conclusions of the research.

1.2. Importance of automatic urban perception

1.3. Importance of explainability in artificial intelligence

1.4. Hypothesis

2. OBJECTIVES

This are the thesis objectives

3. RELATED WORK

This are some related investigations.

4. PROPOSED ARCHITECTURE

4.1. Problem Definition

4.2. Network architecture

4.3. Loss function

5. METHODOLOGY

5.1. Implementation

5.2. Training

6. RESULTS

7. CONCLUSIONS

Nothing to say. Be happy.
